Chair of Governors: Mr Alex Munro

Monday 6th January 2020

Dear Parent/Carer,

As part of our topic about 'Why is a healthy body and healthy lifestyle so important?' we will be discovering why our teeth are so important and why we need to look after them. On Monday 13th January, we will specifically be exploring the dangers of plaque on our teeth and will be using EndeKay Disclosing Tablets. These chewable tablets highlight the areas on our teeth where there is plaque. (See attached image and link.) Once the process is completed, children brush their teeth to remove the colour from their teeth. Please note that there will be no cost involved.

<https://www.drugs.com/uk/endeKay-disclosing-tablets-erythrosine-6mg-leaflet.html>

Toothbrushes and child friendly toothpaste will be provided, but if your child requires specialist toothpaste then please feel free to speak with us about it.

If you have any questions or queries, please don't hesitate to contact us.

Yours sincerely

Miss Cooper, Miss Ellis and Mr Beard
Y3 Team
